DEPARTMENT OF STANDARDS MALAYSIA

DEVELOPMENT OF MALAYSIAN STANDARDS

The **Department of Standards Malaysia (Standards Malaysia)** is the national standards and accreditation body of Malaysia.

The main function of Standards Malaysia is to foster and promote standards, standardisation and accreditation as a means of advancing the national economy, promoting industrial efficiency and development, benefiting the health and safety of the public, protecting the consumers, facilitating domestic and international trade and furthering international cooperation in relation to standards and standardisation.

Malaysian Standards (MS) are developed through consensus by committees which comprise balanced representation of producers, users, consumers and others with relevant interests, as may be appropriate to the subject at hand. To the greatest extent possible, Malaysian Standards are aligned to or are adoption of international standards. Approval of a standard as a Malaysian Standard is governed by the Standards of Malaysia Act 1996 [Act 549]. Malaysian Standards are reviewed periodically. The use of Malaysian Standards is voluntary except in so far as they are made mandatory by regulatory authorities by means of regulations, local by-laws or any other similar ways.

SIRIM QAS International Sdn Bhd
Universiti Kebangsaan Malaysia
Universiti Putra Malaysia

Foreword

This Malaysian Standard was developed by the Technical Committee on Food Safety System under the authority of the Industry Standards Committee on Food, Food Products and Food Safety.

Major modifications in this revision are as follows:

- a) reposition of clauses for better reading flow;
- b) amendments on clauses in order to improve the understanding;
- c) inclusion of new terms and definitions and amendments on some of the terms and definitions;
- d) amendments on the Hazard Analysis Worksheet for raw material/packaging material; and
- e) Annex A has been deleted.

This Malaysian Standard cancels and replaces MS 1480:2007, *Food safety according to hazard analysis and critical control point (HACCP) system (First revision)*.

Compliance with a Malaysian Standard does not of itself confer immunity from legal obligations.
