DEPARTMENT OF STANDARDS MALAYSIA

DEVELOPMENT OF MALAYSIAN STANDARDS

The **Department of Standards Malaysia (STANDARDS MALAYSIA)** is the national standards and accreditation body of Malaysia.

The main function of STANDARDS MALAYSIA is to foster and promote standards, standardisation and accreditation as a means of advancing the national economy, promoting industrial efficiency and development, benefiting the health and safety of the public, protecting the consumers, facilitating domestic and international trade and furthering international cooperation in relation to standards and standardisation.

Malaysian Standards (MS) are developed through consensus by committees which comprise balanced representation of producers, users, consumers and others with relevant interests, as may be appropriate to the subject at hand. To the greatest extent possible, Malaysian Standards are aligned to or are adoption of international standards. Approval of a standard as a Malaysian Standard is governed by the Standards of Malaysia Act 1996 [Act 549]. Malaysian Standards are reviewed periodically. The use of Malaysian Standards is voluntary except in so far as they are made mandatory by regulatory authorities by means of regulations, local by-laws or any other similar ways.

STANDARDS MALAYSIA has appointed **SIRIM Berhad** as the agent to develop, distribute and sell the Malaysian Standards.

MS 1064: PART 3:2003

Committee representation

The Building and Civil Engineering Industry Standards Committee (ISC D) under whose supervision this Malaysian Standard was developed, comprises representatives from the following organisations:

Association of Consulting Engineers Malaysia
Chartered Institute of Building Malaysia
Construction Industry Development Board Malaysia
Department of Standards Malaysia
Jabatan Bomba dan Penyelamat Malaysia
Jabatan Kerja Raya Malaysia
Jabatan Perumahan Negara
Malaysian Timber Industry Board
Master Builders Association Malaysia
Pertubuhan Akitek Malaysia
Suruhanjaya Tenaga
The Institution of Engineers, Malaysia
Universiti Teknologi Malaysia

The development of this Malaysian Standard is under the supervision of the following organisations of the Technical Committee on Modular Coordination:

Association of Consulting Engineers Malaysia
Construction Industry Development Board Malaysia (Secretariat)
Federation of Malaysian Manufacturers
International Islamic University Malaysia
Institution of Surveyors Malaysia
Jabatan Kerja Raya Malaysia
Jabatan Perumahan Negara
Malaysian Timber Industry Board
Master Builders Association Malaysia
Pertubuhan Akitek Malaysia
SIRIM Berhad
The Institution of Engineers, Malaysia
Universiti Putra Malaysia
Universiti Teknologi MARA

The Working Group on Coordinating Sizes and Preferred Sizes for Stairs and Stair Openings, which developed this Malaysian Standard consists of the following representatives from the following organisations:

Federation of Malaysian Manufacturers
Jabatan Perumahan Negara
Malaysian Timber Industry Board
Pertubuhan Akitek Malaysia
The Institution of Engineers, Malaysia
Universiti Putra Malaysia
Universiti Teknologi MARA

FOREWORD

This Malaysian Standard was developed by the Working Group on Coordinating Sizes and Preferred Sizes for Stairs and Stair Openings, supervised by the Technical Committee on Modular Coordination under the authority of the Building and Civil Engineering Industry Standards Committee. The development of this standard was carried out by the Construction Industry Development Board Malaysia (CIDB) which is the Standards-Writing Organisation (SWO) appointed by SIRIM Berhad to develop standards for the construction industry.

This Malaysian Standard is the revision of MS 1064: Part 13:1988, Coordinating dimensions for stairs and stair openings.

Major modifications featured in this revised standard include:

- i) Revision of the coordinating sizes; and
- ii) Addition of preferred sizes.

MS 1064 consists of the following parts under the general title, "Guide to modular coordination in buildings":

- Part 1: General principles
- Part 2: Storey and room heights
- Part 3: Coordinating sizes and preferred sizes for stairs and stair openings
- Part 4: Coordinating sizes and preferred sizes for doorsets
- Part 5: Coordinating sizes and preferred sizes for windowsets
- Part 6: Coordinating sizes and preferred sizes for rigid flat sheets
- Part 7: Coordinating sizes and preferred sizes for tiles
- Part 8: Coordinating sizes and preferred sizes for masonry bricks and blocks
- Part 9: Coordinating sizes and preferred sizes for cabinets
- Part 10: Coordinating sizes and preferred sizes for reinforced concrete components

This Malaysian Standard cancels and replaces MS 1064: Part 13:1988.

Compliance with a Malaysian Standard does not of itself confer immunity from legal obligations.
