DEPARTMENT OF STANDARDS MALAYSIA

DEVELOPMENT OF MALAYSIAN STANDARDS

The **Department of Standards Malaysia** is the national standards and accreditation body of Malaysia.

The main function of the Department of Standards Malaysia is to foster and promote standards, standardisation and accreditation as a means of advancing the national economy, promoting industrial efficiency and development, benefitting the health and safety of the public, protecting the consumers, facilitating domestic and international trade and furthering international cooperation in relation to standards and standardisation. The use of Malaysian Standards is voluntary except in so far as they are made mandatory by regulatory authorities by means of regulations, local by-laws or any other similar ways.

Malaysian Standards are developed through consensus by committees which comprise balanced representation of producers, users, consumers and others with relevant interests, as may be appropriate to the subject at hand. The development of a standard as a Malaysian Standard is governed by the Standards of Malaysia Act 1996 [Act 549]. Section 18A of the act stipulated that, all Malaysian Standards are owned by the Government of Malaysia and no part of a Malaysian Standard can be reproduced in any form without the written permission of the Director General.

Halal Development Corporation Berhad
Malayan Edible Oil Manufacturers' Association
Malaysian Agricultural Research and Development Institute
Malaysian Oleochemicals Manufacturers Group
Malaysian Palm Oil Board
Ministry of Health Malaysia
Palm Oil Refiners Association of Malaysia
Persatuan Pengguna Islam Malaysia
Universiti Putra Malaysia

Foreword

This Malaysian Standard was developed by the Technical Committee on Palm-Based Oils and Fats (NSC 24/TC 3) under the authority of the National Standards Committee on Oil Palm and Its Products (NSC 24).

This second revision of MS 1437 cancels and replaces MS 1437:2010, *Specification for palm kernel stearin (First revision)*.

Major modifications in this revision are as follows:

- a) "Normative references" revised and rearranged accordingly; and
- b) incorporation of an annex on "Additional recommendation for the maximum limit of 3-monochloropropane-1,2-diol esters (3-MCPDE) and glycidyl esters (GE)".

Compliance with a Malaysian Standard does not of itself confer immunity from legal obligations.
