**DEPARTMENT OF STANDARDS MALAYSIA**

## DEVELOPMENT OF MALAYSIAN STANDARDS

The **Department of Standards Malaysia (Standards Malaysia)** is the national standards and accreditation body of Malaysia.

The main function of Standards Malaysia is to foster and promote standards, standardisation and accreditation as a means of advancing the national economy, promoting industrial efficiency and development, benefitting the health and safety of the public, protecting the consumers, facilitating domestic and international trade and furthering international cooperation in relation to standards and standardisation. The use of Malaysian Standards is voluntary except in so far as they are made mandatory by regulatory authorities by means of regulations, local by-laws or any other similar ways.

Malaysian Standards are developed through consensus by committees which comprise balanced representation of producers, users, consumers and others with relevant interests, as may be appropriate to the subject at hand. The development of a standard as a Malaysian Standard is governed by the Standards of Malaysia Act 1996 [Act 549]. Section 18A of the act stipulated that, all Malaysian Standards are owned by the Government of Malaysia and no part of a Malaysian Standard can be reproduced in any form without the written permission of the Director General.

Sarawak Oil Palm Plantation Owners Association  
Sime Darby Plantation Berhad  
Society for Rights of Indigenous People of Sarawak  
Solidaridad Network Asia  
Sustainable Development Network Malaysia  
Tamaco Plantation Sdn Bhd  
Teoh & Koo Brothers Plantations Sdn Bhd  
Think Big Management Consultant Sdn Bhd  
TUV NORD (Malaysia) Sdn Bhd  
Universiti Malaysia Sarawak  
Universiti Teknologi MARA Sarawak  
WWF-Malaysia

## **MS 2530-2-1:2022**

### **Foreword**

This standard was produced by Working Groups (WGs), which were selected and appointed under the jurisdiction of the Technical Committee on MSPO (TC MSPO) and the National Standards Committee on Oil Palm and Its Products (NSC X). WGs and TC MSPO comprise representatives from a multitude of backgrounds of government agencies, industry – upstream organisations, industry – downstream organisations, smallholder organisations, environmental NGOs, indigenous peoples' organisations, workers union organisations, academia/research & development institutions, accredited certification bodies and other experts.

MS 2530 consists of the following parts (MSPO Standard series), under the general title, Malaysian Sustainable Palm Oil (MSPO):

*Part 1: General Principles*

*Part 2-1: General Principles for Independent Smallholders (less than 40.46 hectares)*

*Part 2-2: General Principles for Organised Smallholders (less than 40.46 hectares)*

*Part 3-1: General Principles for Oil Palm Plantations (40.46 hectares to 500 hectares)*

*Part 3-2: General Principles for Oil Palm Plantations (more than 500 hectares)*

*Part 4-1: General Principles for Palm Oil Mill including Supply Chain Requirements*

*Part 4-2: General Principles for Palm Oil Processing Facilities including Supply Chain Requirements*

*Part 4-3: General Principles for Dealers including Supply Chain Requirements*

This first revision of MS 2530-2-1 cancels and replaces MS 2530-2:2013, *Malaysian Sustainable Palm Oil (MSPO) Part 2: General principles for independent smallholders*.

Compliance with a Malaysian Standard does not of itself confer immunity from legal obligations.
