DEPARTMENT OF STANDARDS MALAYSIA

## DEVELOPMENT OF MALAYSIAN STANDARDS

The **Department of Standards Malaysia** is the national standards and accreditation body of Malaysia.

The main function of the Department of Standards Malaysia is to foster and promote standards, standardisation and accreditation as a means of advancing the national economy, promoting industrial efficiency and development, benefitting the health and safety of the public, protecting the consumers, facilitating domestic and international trade and furthering international cooperation in relation to standards and standardisation. The use of Malaysian Standards is voluntary except in so far as they are made mandatory by regulatory authorities by means of regulations, local by-laws or any other similar ways.

Malaysian Standards are developed through consensus by committees which comprise balanced representation of producers, users, consumers and others with relevant interests, as may be appropriate to the subject at hand. The development of a standard as a Malaysian Standard is governed by the Standards of Malaysia Act 1996 [Act 549]. Section 18A of the act stipulated that, all Malaysian Standards are owned by the Government of Malaysia and no part of a Malaysian Standard can be reproduced in any form without the written permission of the Director General.

## Committee representation

The National Standards Committee on Quality and Organisational Management (NSC 25) under whose authority this Malaysian Standard was adopted, comprises representatives from the following organisations:

Arkib Negara Malaysia  
Construction Industry Development Board Malaysia  
Department of Standards Malaysia  
Department of Standards Malaysia (Secretariat)  
Federation of Malaysian Manufacturers  
Federation of Public Listed Companies  
Institut Kimia Malaysia  
Institut of Quality Malaysia  
Malaysian Agricultural Research and Development Institute  
Malaysian Association of Standards Users  
Malaysian Employers Federation  
Malaysian International Chamber of Commerce and Industry  
Malaysia Productivity Corporation  
Medical Device Authority  
National Pharmaceutical Regulatory Agency  
Science and Technology Research Institute for Defence  
SIRIM QAS International Sdn Bhd  
The Electrical and Electronics Association of Malaysia  
The Institution of Engineers, Malaysia  
Universiti Utara Malaysia

The Technical Committee on Conformity Assessment (NSC 25/TC 5) which supervised the adoption of the ISO Standard as Malaysian Standard consists of representatives from the following organisations:

Construction Industry Development Board Malaysia  
Construction Research Institute of Malaysia  
Department of Standards Malaysia  
Department of Standards Malaysia (Secretariat)  
Institute of Quality Malaysia  
Jabatan Kimia Malaysia  
Malaysian Association of Standard Users  
Persatuan Badan Pensijilan Malaysia  
Persatuan Makmal Akreditasi Malaysia  
SIRIM QAS International Sdn Bhd  
Universiti Putra Malaysia

# MS ISO/IEC 17030:2021

## National foreword

The adoption of the ISO Standard as a Malaysian Standard was recommended by the Technical Committee on Conformity Assessment (NSC 25/TC 5) under the authority of the National Standards Committee on Quality and Organisational Management (NSC 25).

This first revision of MS ISO/IEC 17030 cancels and replaces MS ISO/IEC 17030:2003 (CONFIRMED:2016), *Conformity assessment – General requirements for third-party marks of conformity* (ISO/IEC 17030:2003, IDT) which has been technically revised.

This Malaysian Standard is identical with ISO/IEC 17030:2021, *Conformity assessment – General requirements for third-party marks of conformity*, published by the International Organization for Standardization (ISO) and International Electrotechnical Commission (IEC). However, for the purposes of this Malaysian Standard, the following apply:

- a) in the source text, “this International Standard” should read as “this Malaysian Standard”;
- b) the comma which is used as a decimal sign (if any), to read as a point; and
- c) references to International Standards should be replaced by equivalent Malaysian Standards as follows:

### Referenced International Standards

### Corresponding Malaysian Standards

ISO/IEC 17020, Conformity assessment – Requirements for the operation of various types of bodies performing inspection

MS ISO/IEC 17020, Conformity assessment – Requirements for the operation of various type of bodies performing inspection

ISO/IEC 17021-1, Conformity assessment – Requirements for bodies providing audit and certification of management systems – Part 1: Requirements

MS ISO/IEC 17021-1, Conformity assessment – Requirements for bodies providing audit and certification of management systems – Part 1: Requirements

ISO/IEC 17024, Conformity assessment – General requirements for bodies operating certification of persons

MS ISO/IEC 17024, Conformity assessment – General requirements for bodies operating certification of persons

ISO/IEC 17065, Conformity assessment – Requirements for bodies certifying products, processes and services

MS ISO/IEC 17065, Conformity assessment – Requirements for bodies certifying products, processes and services

Compliance with a Malaysian Standard does not of itself confer immunity from legal obligations.

NOTE. IDT on the front cover indicates an identical standard i.e. a standard where the technical content, structure, and wording (or is an identical translation) of a Malaysian Standard is exactly the same as in an International Standard or is identical in technical content and structure although it may contain the minimal editorial changes specified in clause 4.2 of ISO/IEC Guide 21-1:2005.
