DEPARTMENT OF STANDARDS MALAYSIA

DEVELOPMENT OF MALAYSIAN STANDARDS

The **Department of Standards Malaysia (STANDARDS MALAYSIA)** is the national standards and accreditation body of Malaysia.

The main function of STANDARDS MALAYSIA is to foster and promote standards, standardisation and accreditation as a means of advancing the national economy, promoting industrial efficiency and development, benefiting the health and safety of the public, protecting the consumers, facilitating domestic and international trade and furthering international cooperation in relation to standards and standardisation.

Malaysian Standards (MS) are developed through consensus by committees which comprise balanced representation of producers, users, consumers and others with relevant interests, as may be appropriate to the subject at hand. To the greatest extent possible, Malaysian Standards are aligned to or are adoption of international standards. Approval of a standard as a Malaysian Standard is governed by the Standards of Malaysia Act 1996 [Act 549]. Malaysian Standards are reviewed periodically. The use of Malaysian Standards is voluntary except in so far as they are made mandatory by regulatory authorities by means of regulations, local by-laws or any other similar ways.

STANDARDS MALAYSIA has appointed **SIRIM Berhad** as the agent to develop, distribute and sell the Malaysian Standards.

Committee representation

The Industry Standards Committee on Food, Food Products and Food Safety (ISC U) under whose authority this Malaysian Standard was developed, comprises representatives from the following organisations:

Department of Agriculture Malaysia
Department of Chemistry, Malaysia
Department of Islamic Development Malaysia
Department of Standards Malaysia
Federal Agricultural Marketing Authority
Federation of Malaysian Manufacturers
Malaysian Agricultural Research and Development Institute
Malaysian Association of Standards Users
Malaysian Institute of Food Technology
Malaysian Palm Oil Association
Malaysian Palm Oil Board
Ministry of Agriculture and Agro-Based Industry Malaysia
Ministry of Health Malaysia
Ministry of International Trade and Industry
Ministry of Science, Technology and Innovation (National Biotechnology Division)
SIRIM Berhad (Secretariat)
SME Corporation Malaysia
Universiti Kebangsaan Malaysia
Universiti Putra Malaysia

The Technical Committee on Fats and Oils which developed this Malaysian Standard was managed by Malaysian Palm Oil Board (MPOB) in its capacity as an authorised Standards-Writing Organisation and consists of representatives from the following organisations:

Department of Chemistry, Malaysia
Malayan Edible Oil Association
Malaysian Palm Oil Board (Secretariat)
Malaysian Palm Oil Council
Ministry of Health Malaysia
Palm Oil Refiners Association of Malaysia
Sime Darby Sdn Bhd
SIRIM Berhad

FOREWORD

This Malaysian Standard was developed by the Technical Committee on Fats and Oils under the authority of the Industry Standards Committee on Food, Food Products and Food Safety.

MS 1231 consists of the following parts under the general title, *Sampling of palm oil and palm oil products*:

Part 1: Sampling from packages

Part 2: Sampling from bulk

Compliance with a Malaysian Standard does not of itself confer immunity from legal obligations.
