DEPARTMENT OF STANDARDS MALAYSIA

## DEVELOPMENT OF MALAYSIAN STANDARDS

The **Department of Standards Malaysia (STANDARDS MALAYSIA)** is the national standardisation and accreditation body.

The main function of the Department is to foster and promote standards, standardisation and accreditation as a means of advancing the national economy, promoting industrial efficiency and development, benefiting the health and safety of the public, protecting the consumers, facilitating domestic and international trade and furthering international cooperation in relation to standards and standardisation.

Malaysian Standards are developed through consensus by committees which comprise of balanced representation of producers, users, consumers and others with relevant interests, as may be appropriate to the subject in hand. To the greatest extent possible, Malaysian Standards are aligned to or are adoption of international standards. Approval of a standard as a Malaysian Standard is governed by the Standards of Malaysia Act 1996 (Act 549). Malaysian Standards are reviewed periodically. The use of Malaysian Standards is voluntary except in so far as they are made mandatory by regulatory authorities by means of regulations, local by-laws or any other similar ways.

The Department of Standards appoints **SIRIM Berhad** as the agent to develop Malaysian Standards. The Department also appoints SIRIM Berhad as the agent for distribution and sale of Malaysian Standards.

## Committee representation

The Plastics and Plastics Products Industry Standards Committee (ISC J) under whose authority this Malaysian Standard was adopted, comprises representatives from the following organisations:

Department of Standards Malaysia  
Federation of Malaysian Manufacturers  
Malaysian Association of Standards Users  
Malaysian Institute of Chemistry  
Malaysian Petrochemical Association  
Malaysian Plastics Manufacturers Association  
Malaysian Rubber Board  
Ministry of Domestic Trade and Consumers Affairs  
Ministry of Health Malaysia  
Ministry of International Trade and Industry Malaysia  
Plastics and Rubber Institute of Malaysia  
Public Works Department Malaysia  
SIRIM Berhad (Advanced Polymer and Composites Programme)  
SIRIM QAS International Sdn Bhd  
The Institution of Engineers, Malaysia  
Universiti Kebangsaan Malaysia  
Universiti Sains Malaysia  
Universiti Teknologi Malaysia

The Technical Committee on General and Raw Materials for Plastics which recommends adoption of the ISO Standard consists of representatives from the following organisations:

Federation of Malaysian Manufacturers (Hercules Sdn Bhd)  
Malaysian Petrochemical Association (Dow Chemical (Malaysia) Sdn Bhd)  
Malaysian Plastics Manufacturers Association (Industrial Resins (Malaysia) Berhad)  
SIRIM Berhad (Advanced Polymer and Composites Programme)  
SIRIM Berhad (Secretariat)  
SIRIM QAS International Sdn Bhd (Civil and Construction Section)  
Universiti Malaya  
Vinyl Chloride (Malaysia) Sdn Bhd

## **NATIONAL FOREWORD**

The adoption of the ISO Standard as a Malaysian Standard was recommended by the Technical Committee on General and Raw Materials for Plastics under the authority of the Plastics and Plastics Products Industry Standards Committee.

This Malaysian Standard is identical with ISO 1624:2001, *Plastics - Vinyl chloride homopolymer and copolymer resins-sieve analysis in water*, published by the International Organization for Standardization (ISO). However, for the purposes of this Malaysian Standard, the following apply:

- a) in the source text, “this International Standard” should read “this Malaysian Standard”;  
and
- b) the comma which is used as a decimal sign (if any), to read as a point.

Compliance with a Malaysian Standard does not of itself confer immunity from legal obligations.

NOTE. IDT on the front cover indicates an identical standard i.e. a standard where the technical content, structure, and wording (or is an identical translation) of a Malaysian Standard is exactly the same as in an International Standard or is identical in technical content and structure although it may contain the minimal editorial changes specified in clause 4.2 of ISO/IEC Guide 21-1.
