DEVELOPMENT OF MALAYSIAN STANDARDS

The **Department of Standards Malaysia** is the national standards and accreditation body of Malaysia.

The main function of the Department of Standards Malaysia is to foster and promote standards, standardisation and accreditation as a means of advancing the national economy, promoting industrial efficiency and development, benefitting the health and safety of the public, protecting the consumers, facilitating domestic and international trade and furthering international cooperation in relation to standards and standardisation. The use of Malaysian Standards is voluntary except in so far as they are made mandatory by regulatory authorities by means of regulations, local by-laws or any other similar ways.

Malaysian Standards are developed through consensus by committees which comprise balanced representation of producers, users, consumers and others with relevant interests, as may be appropriate to the subject at hand. The development of a standard as a Malaysian Standard is governed by the Standards of Malaysia Act 1996 [Act 549]. Section 18A of the act stipulated that, all Malaysian Standards are owned by the Government of Malaysia and no part of a Malaysian Standard can be reproduced in any form without the written permission of the Director General.

Committee representation

The National Standards Committee on Electrical and Electronics Equipment, and Accessories (NSC 19) under whose authority this Malaysian Standard was developed, comprises representatives from the following organisations:

Association of Consulting Engineers Malaysia
Department of Standards Malaysia (Secretariat)
Federation of Malaysian Consumers Association
Jabatan Kerja Raya Malaysia
Jabatan Tenaga Atom
Kementerian Perdagangan Dalam Negeri dan Kos Sara Hidup
Malaysian Cable Manufacturers Association
Malaysian Electrical Appliances and Distributors Association
Multimedia University
Petroliam Nasional Berhad
SIRIM QAS International Sdn Bhd
Suruhanjaya Komunikasi dan Multimedia Malaysia
Suruhanjaya Tenaga
The Electrical and Electronics Association of Malaysia
The Institution of Engineers, Malaysia
Universiti Teknologi Malaysia
Universiti Tenaga Nasional

The Technical Committee on Safety of Household and Similar Electrical Appliances (NSC 19/TC 5) which supervised the development of this Malaysian Standard consists of representatives from the following organisations:

ASHRAE Malaysia Chapter
Association of Consulting Engineers Malaysia
Daikin Research and Development Malaysia Sdn Bhd
Department of Standards Malaysia (Secretariat)
Jabatan Kerja Raya
Khind Holdings Berhad
Panasonic Appliances R&D Centre Asia Pacific Sdn Bhd
Sharp Electronics (M) Sdn Bhd
SIRIM QAS International Sdn Bhd
Suruhanjaya Tenaga
The Electrical and Electronics Association of Malaysia
The Institution of Engineers, Malaysia
Universiti Teknikal Malaysia Melaka

Co-opted members:
Daikin Refrigeration Malaysia Sdn Bhd
Panasonic Appliances Air Conditioning Malaysia Sdn Bhd

National Foreword

The adoption of the IEC Standard as a Malaysian Standard was recommended by the Working Group on Electrical Household for Heating Appliances (NSC 19/TC 5/WG 2) under the authority of the National Standards Committee on Electrical and Electronics Equipment and Accessories (NSC 19).

This third revision of MS IEC 60335-2-13 cancels and replaces MS IEC 60335-2-13:2006, *Household and similar electrical appliances - Safety - Part 2-13: Particular requirements for deep fat fryers, frying pans and similar appliances*.

This Malaysian Standard is identical with IEC 60335-2-13:2021, *Household and similar electrical appliances - Safety - Part 2-13: Particular requirements for deep fat fryers, frying pans and similar appliances*, published by the International Electrotechnical Commission (IEC). However, for the purposes of this Malaysian Standard, the following apply:

a) in the source text, "this International Standard" should read "this Malaysian Standard";

b) the comma which is used as a decimal sign (if any), to read as a point; and

c) reference to International Standards should be replaced by corresponding Malaysian Standards as follows:

Referenced International Standards	Corresponding Malaysian Standards
IEC 60320-1, *Appliance couplers for household and similar general purposes - Part 1: General requirements*	MS IEC 60320-1, *Appliance couplers for household and similar general purposes - Part 1: General requirements*

Compliance with a Malaysian Standard does not of itself confer immunity from legal obligations.

NOTE IDT on the front cover indicates an identical standard i.e. a standard where the technical content, structure, and wording (or is an identical translation) of a Malaysian Standard is exactly the same as in an International Standard or is identical in technical content and structure although it may contain the minimal editorial changes specified in clause 4.2 of ISO/IEC Guide 21-1:2005.
