DEPARTMENT OF STANDARDS MALAYSIA

## DEVELOPMENT OF MALAYSIAN STANDARDS

The **Department of Standards Malaysia (DSM)** is the national standardisation and accreditation body.

The main function of the Department is to foster and promote standards, standardisation and accreditation as a means of advancing the national economy, promoting industrial efficiency and development, benefiting the health and safety of the public, protecting the consumers, facilitating domestic and international trade and furthering international cooperation in relation to standards and standardisation.

Malaysian Standards are developed through consensus by committees which comprise of balanced representation of producers, users, consumers and others with relevant interests, as may be appropriate to the subject in hand. These standards where appropriate are adoption of international standards. Approval of a standard as a Malaysian Standard is governed by the Standards of Malaysia Act 1996 (Act 549). Malaysian Standards are reviewed periodically. The use of Malaysian Standards is voluntary except in so far as they are made mandatory by regulatory authorities by means of regulations, local by-laws or any other similar ways.

The Department of Standards appoints **SIRIM Berhad** as the agent to develop Malaysian Standards. The Department also appoints SIRIM Berhad as the agent for distribution and sale of Malaysian Standards.

Encik Rajinder Raj/Encik Abdul Aziz Long/ Puan Leong Swee Keng	SIRIM QAS Sdn. Bhd.

## **MS ISO 14012 : 1997**

### **NATIONAL FOREWORD**

This Malaysian Standard was prepared by the National Sub-Committee on Environmental Management Systems and Environmental Auditing under the authority of the National Committee on Environmental Standards.

This Malaysian Standard was adopted in total from ISO 14012, Guidelines for environmental auditing - Qualification criteria for environmental auditors, in the interest of international harmonisation and trade.

Wherever the words 'International standard' appear in this standard they should be read as 'Malaysian Standard' and the comma which is used as a decimal marker should be read as a full point on the baseline as the decimal marker.

This standard shall supersede the Provisional Malaysian Standard MS ISO/DIS 14012 : 1995(P).

Compliance with a Malaysian Standard does not of itself confer immunity from legal obligation.

## Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

International Standard ISO 14012 was prepared by Technical Committee ISO/TC 207, *Environmental management*, Subcommittee SC 2, *Environmental auditing and related environmental investigations*.

Annexes A, B and C of this International Standard are for information only.
