MS 1506 : 2000

SPECIFICATION FOR WOODEN DOOR

ICS : 91.060.50

Descriptors : wooden doors, dimension of doors, definitions, strength of doors, lateral stiffness, puncture resistance

DEPARTMENT OF STANDARDS MALAYSIA

DEVELOPMENT OF MALAYSIAN STANDARDS

The **Department of Standards Malaysia (DSM)** is the national standardisation and accreditation body.

The main function of the Department is to foster and promote standards, standardisation and accreditation as a means of advancing the national economy, promoting industrial efficiency and development, benefiting the health and safety of the public, protecting the consumers, facilitating domestic and international trade and furthering international cooperation in relation to standards and standardisation.

Malaysian Standards are developed through consensus by committees which comprise of balanced representation of producers, users, consumers and others with relevant interests, as may be appropriate to the subject in hand. These standards where appropriate are adoption of international standards. Approval of a standard as a Malaysian Standard is governed by the Standards of Malaysia Act 1996 (Act 549). Malaysian Standards are reviewed periodically. The use of Malaysian Standards is voluntary except in so far as they are made mandatory by regulatory authorities by means of regulations, local by-laws or any other similar ways.

The Department of Standards appoints **SIRIM Berhad** as the agent to develop Malaysian Standards. The Department also appoints SIRIM Berhad as the agent for distribution and sale of Malaysian Standards.

Encik Tan Joo Tian	Malaysian Furniture Industry Council (MFIC)
Puan Raja Nor Siha bt. Raja Abd. Hanan	SIRIM Berhad

FOREWORD

This Malaysian Standard was developed by the Working Group on Timber Door under the authority of the Building and Civil Engineering Industry Standards Committee.

This standard was based on the Australian Standard, AS 2688 : 1984, 'Timber Doors'. References were made to other publications which include:

1) MS 1036: 1986 Specification for wood chipboard and method of test for particleboard.

2) MS 1064: Part 10: 1988 Guide to modular coordination in buildings Part 10: Preferred dimensions for doorsets.

Throughout the preparation of the standard, due considerations were given to local and current practices.

Compliance with a Malaysian Standard does not of itself confer immunity from legal obligations.
