DEPARTMENT OF STANDARDS MALAYSIA

## DEVELOPMENT OF MALAYSIAN STANDARDS

The **Department of Standards Malaysia (STANDARDS MALAYSIA)** is the national standards and accreditation body of Malaysia.

The main function of STANDARDS MALAYSIA is to foster and promote standards, standardisation and accreditation as a means of advancing the national economy, promoting industrial efficiency and development, benefiting the health and safety of the public, protecting the consumers, facilitating domestic and international trade and furthering international cooperation in relation to standards and standardisation.

Malaysian Standards (MS) are developed through consensus by committees which comprise balanced representation of producers, users, consumers and others with relevant interests, as may be appropriate to the subject at hand. To the greatest extent possible, Malaysian Standards are aligned to or are adoption of international standards. Approval of a standard as a Malaysian Standard is governed by the Standards of Malaysia Act 1996 [Act 549]. Malaysian Standards are reviewed periodically. The use of Malaysian Standards is voluntary except in so far as they are made mandatory by regulatory authorities by means of regulations, local by-laws or any other similar ways.

STANDARDS MALAYSIA has appointed **SIRIM Berhad** as the agent to develop, distribute and sell the Malaysian Standards.

## Committee representation

The Industry Standards Committee on Mechanical Engineering (ISC F) under whose authority this Malaysian Standard was developed, comprises representatives from the following organisations:

Department of Occupational Safety and Health Malaysia  
Department of Standards Malaysia  
Jabatan Kerja Raya Malaysia  
Machinery and Equipment Manufacturers' Association  
Malaysian Industrial Development Authority  
Malaysian Iron and Steel Industry Federation  
Ministry of International Trade and Industry  
National Institute of Occupational Safety and Health  
Petroleum Nasional Berhad  
Science and Technology Research Institute for Defence  
SIRIM Berhad (Secretariat)  
SIRIM QAS International Sdn Bhd  
Suruhanjaya Perkhidmatan Air Negara  
Suruhanjaya Tenaga  
The Institution of Engineers, Malaysia  
Universiti Kebangsaan Malaysia  
Universiti Malaya  
Universiti Sains Malaysia  
Universiti Teknologi Malaysia

The Technical Committee on Boilers and Pressure Vessels which developed this Malaysian Standard consists of representatives from the following organisations:

Association of Consulting Engineers Malaysia  
Department of Occupational Safety and Health Malaysia  
Emery Oleochemicals (M) Sdn Bhd  
Malaysian Iron and Steel Industry Federation  
Petroleum Nasional Berhad  
Petronas Carigali Sdn Bhd  
SIRIM Berhad (Secretariat)  
Tenaga Nasional Berhad  
The Institution of Engineers, Malaysia  
Universiti Teknologi Malaysia  
Universiti Teknologi PETRONAS

## **MS 2404-1:2011**

### **FOREWORD**

This Malaysian Standard was developed by the Technical Committee on Boilers and Pressure Vessels under the authority of the Industry Standards Committee on Mechanical Engineering.

MS 2404 consists of the following parts, under the general title *Pressure vessel inspection code*:

*Part 1: Inservice inspection*

*Part 2: Repairs and alterations*

Compliance with a Malaysian Standard does not of itself confer immunity from legal obligations.
