DEPARTMENT OF STANDARDS MALAYSIA

DEVELOPMENT OF MALAYSIAN STANDARDS

The **Department of Standards Malaysia (STANDARDS MALAYSIA)** is the national standards and accreditation body of Malaysia.

The main function of STANDARDS MALAYSIA is to foster and promote standards, standardisation and accreditation as a means of advancing the national economy, promoting industrial efficiency and development, benefiting the health and safety of the public, protecting the consumers, facilitating domestic and international trade and furthering international cooperation in relation to standards and standardisation.

Malaysian Standards (MS) are developed through consensus by committees which comprise balanced representation of producers, users, consumers and others with relevant interests, as may be appropriate to the subject at hand. To the greatest extent possible, Malaysian Standards are aligned to or are adoption of international standards. Approval of a standard as a Malaysian Standard is governed by the Standards of Malaysia Act 1996 [Act 549]. Malaysian Standards are reviewed periodically. The use of Malaysian Standards is voluntary except in so far as they are made mandatory by regulatory authorities by means of regulations, local by-laws or any other similar ways.

STANDARDS MALAYSIA has appointed **SIRIM Berhad** as the agent to develop, distribute and sell the Malaysian Standards.

Committee representation

The Industry Standards Committee on Chemicals and Materials (ISC B) under whose authority this Malaysian Standard was developed, comprises representatives from the following organisations:

Department of Agriculture Malaysia
Department of Chemistry, Malaysia
Department of Standards Malaysia
Malaysian Association of Standards Users
Malaysian Ceramic Industry Group
Malaysian Institute of Chemistry
Malaysian Paint Manufacturers Association
Malaysian Pulp and Paper Manufacturers Association
Minerals and Geoscience Department Malaysia
Ministry of International Trade and Industry
Science and Technology Research Institute for Defence
SIRIM Berhad (Secretariat)
Universiti Malaya
Universiti Sains Malaysia
Universiti Teknologi Malaysia

The Working Group on Adhesives which developed this Malaysian Standard consists of representatives from the following organisations:

Department of Chemistry, Malaysia
Forest Research Institute Malaysia
Lembaga Perindustrian Kayu Malaysia
Kumpulan Kesuma Sdn Bhd
Malayan Adhesive and Chemical (Research Division)
Malayan Adhesive and Chemical (Technical Division)
Malaysian Association of Standards Users
Malaysian Rubber Board
SIRIM Berhad (Secretariat)
Universiti Putra Malaysia
Universiti Teknologi Malaysia
Universiti Teknologi MARA

FOREWORD

This Malaysian Standard was developed by the Working Group on Adhesives under the authority of the Industry Standards Committee on Chemicals and Materials.

This Malaysian Standard is the first revision of MS 908, *Specification for synthetic resin adhesives (phenolic and aminoplastic) for plywood*

Major modifications in this revision are as follows:

- a) addition of Clause 2 on Normative references;
- b) rewording of clause 8.3 on certification mark;
- c) replacement of BS 5214 Part 1 and Part 2 of Annex C with MS 228:1991 Annex E4;
- d) omission of the term white meranti from Annex A and to include a NOTE on species to be recorded; and
- e) amendment to the moisture calculation formula in Annex G

This Malaysian Standard cancels and replaces MS 908:1984.

Compliance with a Malaysian Standard does not of itself confer immunity from legal obligations.
